23. A. see B. to see C. to seeing D. seeing
24. A. who B. what C. which D. whose

**Read the following passage carefully and answer the questions. (4 points)**

Thomas Edison was born on February 11, 1847 in Milan, Ohio. He struggled at school but learned to love reading and conducting experiments from his mother at home. At age 15, Edison became a "tramp telegrapher." Edison began working on the telegraph and invented a version that could send four messages at once. He started his famous laboratory at Menlo Park, New Jersey. In 1877, Edison invented the phonograph. The phonograph was a machine that recorded and played back sounds. In 1878, Edison invented the light bulb as well as the power grid system, which could generate electricity and deliver it to homes through a network of wires. He subsequently started the Edison Electric Light Company in October of 1878. Edison continued to invent and make significant contributions to X-ray technology, storage batteries and motion pictures. Edison worked until his death on October 18, 1931.

1. Where was Thomas Edison born?  
→
2. Did Thomas Edison hate reading and conducting experiments?  
→
3. When did Edison invent the phonograph?  
→
4. What could generate electricity and deliver it to homes through a network of wires?  
→

**Arrange the given words/ phrases to make meaningful sentences. (4 points)**
