Question 24:	**A.** ceremony	**B.** meeting	**C.** party	**D.** festival
Question 25:	**A.** that	**B.** whom	**C.** which	**D.** whose

PART 2: ***Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions (from 26 to 30).***

Music influences people in different ways or the same person differently at different times. Music may seem to influence people differently. That is because people can react differently to music. We are able to apply a choosing process to the music we hear. If someone hates jazz, then a jazz piece with a positive effect will probably not make him feel good. A happy song might appear to make an angry person angrier, yet it is not the music ***itself*** that is creating the anger; rather it is the positive effect of the music. The angry person does not want to accept the song's happy feeling: it points out his already existing anger and makes that anger come to the surface. When a piece of music is played and we are listening to it, our body, mind, and feelings are being affected. The musicians of ancient cultures such as China, India, Turkey, and Greece understood the effects of music. In fact, Pathagoras, in ancient Greece, introduced a whole science that concerned them. Because the musicians of these ancient cultures understood these effects, they created music that was positive, uplifting, and beneficial. ***Once*** the effects of music are better understood, the next step is to gain a better understanding of the music around us, and what effect it is actually having.

Question 34. The money collected from selling handmade **was used to build a local center for orphans.**
Question 35. It is dangerous **to exceed the speed limit**.

TAPESCRIPT

Part 1

Listen to Paul and Andrea talking about their family life. What are two things that are different about their families? Complete the chart.

P: So, Andrea, you're going home for the holiday?
A: I am. I've booked a flight for tomorrow afternoon and I can't wait.
P: That sounds great.
A: What about you? Going home too?
P: I haven't decided yet. I'm still considering ....
A: Haven't decided yet? Oh, you are never going to get a flight out of here. All the seats have been reserved by now I'm sure. It's the holiday season, after all.
P: Well, it's not very important to me. My family lives about 180 kilometres from here. I usually take the train or the coach.
A: You don't sound excited about it.
P: Well, we are not really a very close-knit family. I have three brothers, and they've spread out all over the place. We rarely get together as a family anymore.
A: Well, I try to get home as soon as possible. We're a big family - there are six of us - children - so it's always a lot of fun.
P: Six kids?
A: Yes. And we're all really close. My brothers are married, so it makes for a very crowded home over the holiday. And there are too many people to cook for, so we end up going out to dinner a lot. That's also fun.
P: Well, at my home, my mother loves to cook, so when we get home she often cooks big meals. We have leftovers for days.

Part 2:

Hello, I'm Minh Quang. This is the July report of the Heart to Heart charity. We are a non-profit that helps poor children in Vietnam. Last July, we had a lot of volunteer activities in Cao Bang and Ha Giang. We highly appreciate your support and donation. All the books and clothes were sent to 850 poor children in the two provinces. We have received 62 million VND from 43 donors. All the money was then spent on buying food, clothes, and medicines for the children. We would like to thank 50 volunteers for your time, efforts, and endless love for the children. We had a meaningful trip with lots of useful and exciting activities for the children such as teaching them Vietnamese and English and telling stories to them. We always need new volunteers. Your donation of any kind will always be welcomed. So please don't hesitate to contact us via: …
