Keep Our Environment Clean

About two hundred years ago, man lived in greater harmony with his environment because the industry was not much developed. Today the situation is quite different. People all over the world are worried about what is happening to the environment because of modern industry and the need for more and more energy. Newspapers and magazines write about water pollution, air pollution and land pollution.

Why is there so much discussion about pollution? After all, people have been polluting the world around them for thousands and thousands of years. In the past, there were not so many people and lots of room in the world so they could move to another place when their settlements became dirty. Now, however, many parts of the world are crowded, people live in big cities and much of our waste, especially waste from factories, electric power stations, the chemical industry is very dangerous. Fish dies in the lakes, rivers, and seas, forest fires die, too. Much of this dangerous waste goes into the air and is carried by winds for great distances.

The Earth is our home. Putting an end to this problem is not the responsibility of an individual or a group or an organization. It must be the responsibility of the whole humankind.

A/ Decide if the following sentences are true or false. Write T if the answer is correct and F if the answer is incorrect. (0.4 m)

Australia is a country comprising the mainland of the Australian continent, the island of Tasmania and numerous smaller islands. It is the world's sixth-largest country by total area. Australia's capital is Canberra, and its largest urban area is Sydney.

For about 50000 years before the first British settlement in the late 18th century, Australia was inhabited by indigenous Australians, who spoke languages classifiable into roughly 250 groups. After the European discovery of the continent by Dutch explorers in 1606, Australia's eastern half was claimed by Great Britain in 1770 and initially settled through penal transportation to the colony of New South Wales from 26 January 1788. The population grew steadily in subsequent decades, and by the 1850s most of the continent had been explored and an additional five self-governing crown colonies established. On 1 January 1901, the six colonies federated, forming the Commonwealth of Australia. Australia has since maintained a stable liberal democratic political system. The population of 24 million is highly urbanized and heavily concentrated on the eastern seaboard.

Australia has the world's 13th-largest economy and ninth-highest per capita income (IMF). With the second-highest human development index globally, the country ranks highly in quality of life, health, education, economic freedom, and civil liberties and political right.

Transcript:

If you ask people in Japan what's the best thing from their country, they might say instant noodles. Sometimes called ramen, instant noodles are enjoyed around the world. Where did they come from? The history of instant noodles begins in Japan in 1957. Momofuku Ando was 47 years old. At that time, Japan was not a developed country. Some people didn't have enough food to eat. Ando wanted to make a new food. It should be easy to make and not cost a lot of money. He wanted to make instant noodles. For one year, he tried to make it. Nothing worked. One day, something good happened. He put noodles in hot oil. It worked well. They became easy to eat after sitting in hot water for a few minutes. He found a way to make instant noodles.

People in Japan loved them. Five years later, he went to America. Some business people tried his instant noodles. He watched them eat and saw something interesting.

The Americans put noodles in a cup. That gave Ando another idea: cup noodles. In 1971, he made instant noodles in a cup. It was a big seller. Ando died in 2007. Many people remember Ando as the man who created a new and special Japanese food. And it is started with a man and an idea.

Dịch bài đọc:

Nếu bạn hỏi người dân Nhật Bản cái gì tốt nhất từ đất nước của họ, họ có thể nói mì ăn liền. Đôi khi được gọi là ramen, mì ăn liền được thưởng thức trên khắp thế giới. Chúng đến từ đâu vậy?

Lịch sử của mì ăn liền bắt đầu ở Nhật Bản vào năm 1957. Momofuku Ando 47 tuổi. Vào thời điểm đó, Nhật Bản không phải là một quốc gia phát triển. Một số người không có đủ thức ăn để ăn. Ando muốn làm một món ăn mới. Nó phải dễ làm và không tốn nhiều tiền. Ông muốn làm mì ăn liền. Trong một năm, ông đã cố gắng để làm nó. Không có hiệu quả gì. Một ngày nọ, một tin vui đã xảy ra. Ông cho mì vào dầu nóng. Nó có hiệu quả tốt. Chúng trở nên dễ ăn sau khi để trong nước nóng vài phút. Ông đã tìm ra cách làm mì ăn liền.

Người dân Nhật Bản yêu chúng. Năm năm sau, ông sang Mỹ. Một số người kinh doanh đã thử mì ăn liền của ông. Ông nhìn họ ăn và thấy một điều thú vị.

Người Mỹ cho mì vào cốc. Điều đó đã cho Ando một ý tưởng khác: mì cốc. Năm 1971, ông làm mì ăn liền trong cốc. Đó là món hàng bán chạy. Ando qua đời vào năm 2007. Nhiều người nhớ

đến Ando như là người đã tạo ra một món ăn mới và đặc biệt của Nhật Bản. Và nó được bắt đầu với một người đàn ông và một ý tưởng

About 4,000 years ago a young boy called Elmesu wished his father good health and a long life by writing a Father's Day message on a card made of clay. No one knows what happened to Elmesu or his father, but the tradition of having a special day honoring fathers has continued through the years in countries across the world.

Father's Day is celebrated on 3rd Sunday in June in many parts of the world. The idea for creating a day for children to honor their fathers began in Spokane, Washington. A woman named Sonora Smart Dodd thought of the idea for Father's Day while listening to a Mother's Day teaching given in a church in 1909. Having been raised by her father, Henry Jackson Smart after her mother died, Sonora wanted her father to know how special he was to her. It was her father that did everything for her and was, in the eyes of his daughter, a courageous, selfless, and loving man. Sonora's father was born in June, so she chose to hold the first Father's Day celebration in Spokane, Washington on the 19th June, 1910.

II/ READING:

- *Read carefully the passage:*

Everyday in radio, on TV, and in the newspapers, we hear, see or read about many problems in the world, for example, pollution problems.

Air pollution is the first kind. It mostly comes from fumes released from motorbikes, cars, airplanes, trains and poisonous gases emitted from factories. Also, waste is dump any where, even in the city where many people are living. The second pollution problem is sea pollution. Many people earn their living from fishing in the sea, and the fish they catch feed many people. But the sea has become so polluted from oil spills and factory wastes that the fish are dying. This pollution is not only killing the fish, but is also affecting those people who eat fish.

Seldom do you find a place nowadays that is not polluted. This problem is growing more difficult everyday. We must find a good solution that make the world a better place to live.
