My city has been changing since the municipal authority had a plan to renovate the canal systems. Many ramshackle shacks were built to be shelters of the **impoverished**

working families migrating to this city to earn their living. Household wastes were directly dumped into the canal, resulting in the very contaminated environment. It was said that the very unpleasant smell releasing from the canal was unable to be eliminated, and the living condition there would not be better. However, thanks to the advanced technology and methods as well as the city authority's effort, everything has been changing. There is no longer the disgusting smell or shabby houses along both sides of the canal. Instead, the road running parallel to the canal is now full of shade of greenery and the water now is so clean that it is a friendly habitat for a variety of fish. The residents now can walk or do morning exercise on the sidewalks along the banks to enjoy the fresh atmosphere. Former inhabitants are also relocated in new apartments with much better living conditions than before. The canal creates not only a beautiful urban landscape, but also brings a lot of economic benefits to local dwellers. Because of its reformation, the city is changing fast too.

I. LISTENING

TASK 1

Script:

Ann: Hello, Linh. What are you doing?

Linh: Well, I'm filling out the volunteer application form. This year, our school will organize a 3-week community service campaign to help poor children, in which the volunteers can teach English language as tutors. If you cannot arrange time to take part in, you can donate any kinds of materials like money, books, clothes, or even toys that are still in good use.

Ann: That's interesting! And where are the volunteers going to do those activities?

Linh: Well, the trip is going to last 3 weeks, and we are visiting a mountainous commute located in northern Viet Nam. It's a remote area very far from the town, where the local young learners find it hard to go to a language center to learn English. We are going to bring knowledge to the children. Besides, this is also a good chance for us to learn some social skills and learn to work effectively in a team.

Ann: I can't agree more. I think we can learn more about daily life, culture, and cuisine of the people living there too. It's a pity that I cannot join these activities. However, I can send these children some lovely hand puppets and some of my books.

Linh: That would be great, Ann. After coming back, each member will write a reflection paper so that the organizers will be able to do better in the next campaign. I'll share it with you.

Ann: Thanks a lot Linh! It's so nice of you!
