In the Mekong Delta, Long Dinh village in Tien Giang province is famous for its traditional craft of weaving sedge mats. The mats' high quality makes them popular domestically, and they are also exported to markets worldwide. Sleep is very important. Did you know that sleep is more important than food? A person who does not sleep dies at a younger age than a person who does not eat. Let's say you go to sleep 12 hours later than you usually do. It will take your body about three weeks to return to normal. We spend about one-third of our lives in sleep. That's about 121 days a year!

How much sleep do we need? We are all different. A baby needs 16 hours of sleep every day. Children 6 to 12 years old need an average of 10 to 12 hours of sleep. A teenager needs ' 9 to 10 hours of sleep. An adult needs an average of 7 to 8 hours a night. There are some people who need only 3 hours of sleep. Others need 10 hours of sleep. After the age of 50, the average sleep time **goes down** to 6.5 hours a night. We need less sleep as we get older. Most people have some nights when they cannot sleep. About one in three Americans has a problem with sleep. Many of these people cannot fall asleep or stay asleep. The name of this problem is insomnia. The word insomnia means "no sleep." Some people say, "I didn't sleep all night." They may sleep lightly and **wake up** several times. In the morning, they only remember the times they were awake, so they think they were awake all night.

This is not a new problem. Many famous people in history had insomnia. Some of these people had special ideas to make them sleep. Benjamin Franklin, the famous statesman and inventor, had four beds. He moved from one to the other to fall asleep. King Louis XIV of France had 413 beds and hoped to fall asleep in one of them. Mark Twain, the famous American writer, had a different way. Eating a balanced diet means choosing a wide variety of foods and drinks from all s the food groups. It also means eating certain things in **moderation**, namely saturated fat, cholesterol, refined sugar, and salt. The goal is to take in nutrients you need for health at the recommended levels. You can get the most nutrients by choosing foods with a high-nutrient density. Nutrient-dense foods provide substantial amounts of vitamins and minerals and relatively few calories, such as fresh fruit and vegetables, lean meat and fish, and whole grains and beans.

Low-nutrient dense foods have few vitamins but lots of calories, such as candy bars, soda, donuts and onion rings. Vegetable sources of protein, such as nuts, beans, and whole grains are great choices and offer vitamins, minerals and healthy fibres. The best protein choices are poultry and fish. For those who love red meat, you should stick with the leanest cuts, choose moderate portion sizes, and make it only an occasional part of your diet. Developing healthy eating habits is not as confusing or as restrictive as you may imagine. The first principle of a healthy diet is simply to eat a wide variety of foods. This is important because different foods make different nutritional contributions. Fruits, vegetables, grains, and legumes-foods high in complex carbohydrates, fibre, vitamins, and minerals, low in fat and free of cholesterol-should make up the bulk of the calories you **consume**. Earth Hour is an annual event which asks you to switch off all your lights for one hour. The aim is to involve as many people as possible in positive change for our planet.

What is Earth Hour?

Earth Hour is organised by the World Wide Fund for Nature (WWF) and it's a big event usually at the end of March every year. On this evening, people **'go dark'** - that is, switch off lights in their homes, schools and businesses all at the same time for one hour. Earth Hour started in Australia in 2007, when 2.2 million people in Sydney turned off all unnecessary lights for an hour. Since then, it has grown

into an international event, and many countries around the world have taken part. Famous buildings that have gone dark for Earth Hour include the Sydney Opera House and Harbour Bridge, the Petronas Towers in Kuala Lumpur, the Houses of Parliament and Buckingham Palace in London, the Eiffel Tower in Paris, the Forbidden City in Beijing and New York's Empire State Building.

What's the idea behind Earth Hour?

The idea is to raise awareness of environmental issues and call for action to protect nature, so that people enjoy healthy, happy and sustainable lives now and in the future.

It's true that switching off the lights for just one hour saves only a small amount of power. But this is only the beginning. On one level, participating in Earth Hour makes people think about the problem of climate change and what we can do in everyday life to protect nature.

What does '60+' mean?

The logo of Earth Hour is '60+'. The number 60 is for the 60 minutes of Earth Hour, and the plus invites people to keep on taking action even after Earth Hour is finished. In fact, people who join Earth Hour say that taking part makes them want to do more for the environment. The climate activist Greta Thunberg says that 'Earth Hour is every hour of everyday.
