16. _____ helps people communicate by thoughts.
 A. Holography B. Telepathy C. Emojis D. Digital

III. READING (2pts)

Task 1. Read the essay about some effects of pollution and write True (T) or False (F) (1pt)

Air pollution causes health issues such as coughing, breathing problems, and heart and lung diseases. Nearly seven million people die every year because of air pollution. It also affects animals. If we keep polluting the air, more humans and wildlife will die.

Water pollution affects fish the most. In the USA, about 40% of the rivers and lakes are very polluted. Fish can't live in those rivers and lakes. Unless people stop polluting the water, there won't be any fish left in our rivers.

Land pollution affects trees, wildlife, and people. Trees and plants cannot grow well in polluted soil, so animals lose their homes and cannot find food. Fruit and vegetables can even be dangerous to eat if they grow on polluted land. If people eat this poisoned food, they will get sick. In conclusion, we need to reduce pollution because it is damaging the environment, causing health problems, and affecting wildlife.

(Source: Air pollution, World Health Organization / Water pollution, ECAVO)

17. Nearly seven million people die each year because of heart and lung diseases.
18. The biggest effect of water pollution is on fish.
19. More than half of the rivers in the USA are too dirty, and fish can't live in them.
20. Food can cause health problems if people grow it on polluted land.

Task 2. Read the article about Portal's tablets and answer the following questions. (1pt)

Last week, Portal introduced its new tablet, the Portal 7. Is it better than the Portal 6? Let's have a look.

Screen

The screen is 13 inches, bigger than the Portal 6, but is it actually better? The answer is yes. Images are brighter and clearer. You'll be able to enjoy movies on this tablet!

Battery life

Portal tablets usually have long battery life. We played games and watched movies on both tablets. The Portal 7 lasted for 13 hours while the Portal 6 only lasted for 8 hours.

Storage

The Portal 7 comes with 128 GB of storage. The Portal 6 only has 64 GB. Although 64 GB isn't bad, more storage means you can download more music and movies.

Performance

Now, the biggest question: Does the Portal 7 work well? It has a newer and more powerful chip, and in our test, it was faster than the previous model.

Price

The Portal 7 is 690 dollars, and the Portal 6 is only 520 dollars. However, for this week only, the Portal 6 is on sale for just 480 dollars.

21. What's the screen size of the Portal 7?
22. Which device has longer battery life?
23. How much storage does the Portal 6 have?
24. Is the Portal 6 currently cheaper than normal?

IV. WRITING (2pts)
