Many people still believe that natural resources will never be used up. Actually, the world's energy resources are limited. Nobody knows exactly how much fuel is left. However, we also should use them economically and try to find out alternative sources of power. According to Professor Marvin Burnham of the New England Institute of Technology, we have to start conserving coal, oil and gas before it is too late; and nuclear power is the only alternative.

However, many people do not approve of using nuclear power because it's very dangerous. What would happen if there were a serious nuclear accident? Radioactivity causes cancer and may badly affect the future generations. The most effective thing is that we should use natural resources as economically as possible.

II. Read the following passage and circle the letter A, B, C, or D to indicate the correct answer to each of the questions. (1.75 points)

Teenagers can live a balanced lifestyle by getting enough exercise, eating healthily and having enough rest. **They** need to be involved in a fair level of physical activity to maintain a fit and healthy lifestyle. Physical activity can include a variety of activities such as cycling, playing sports, or walking a dog. Teenagers should aim to perform two or more of these activities regularly. Healthy eating is also an important part of a teenager's life. A human needs food to create energy so that they can function.

Eating healthily consists of eating a balance of the five food groups. These **include**: fruit, vegetables, meat, dairy and a small amount of sugary foods. Having a balanced diet will result in better brain function, healthy weight gain and greater fitness.

Finally, a person needs to stop work or movement in order to relax, refresh oneself and recover. Many people think that rest and sleep are the same thing but they are not. Sleep is when your body shuts down to repair and refresh itself. Rest is a time where your body relaxes such as when you go on a holiday or engage in activities that make you happy and give you pleasure. When you rest, you relax and relieve your mind and body of all the things in life that may cause you stress.

Question 24. How can teenagers keep fit?

Plastic pollution is a growing problem around the world. Every year, millions of tons of plastic waste are thrown into the environment, especially into the oceans. This pollution harms marine life because many sea animals mistake plastic for food and eat it. As a result, they can get sick or even die.

Plastic also affects humans. When small fish eat tiny plastic pieces, larger fish that humans consume may also contain plastic. This can be harmful to our health.

To solve this problem, people should reduce their use of plastic by using cloth bags instead of plastic ones, recycling plastic products, and joining cleanup activities. Governments should also make strict laws to limit plastic waste and protect the environment.

25. What is the main topic of the passage?

- A. Air pollution
- B. Water pollution
- C. Plastic pollution
- D. Noise pollution

26. Where is most plastic waste thrown?

- A. In the mountains
- B. Into the air
- C. Into the oceans
- D. Under the ground

27. Why is plastic dangerous to sea animals?

- A. It makes the water cold.
- B. They mistake it for food and eat it.
- C. It makes the water too clean.
- D. It helps them grow faster.

28. How can plastic affect humans?

- A. It makes the air dirty.
- B. It increases food production.
- C. It helps people recycle more.
- D. It enters the food chain through fish.

29. What is one way to reduce plastic pollution?

- A. Using cloth bags instead of plastic ones
- B. Using more plastic bags
- C. Throwing plastic into the ocean
- D. Burning plastic waste

30. What should governments do to protect the environment?

For 3,000 years, Mongolians have lived in the rural areas, moving to search new grassland for their cattle. They depend on their livestock for a living. Today, about half of Mongolia's population is living in the ger and moving their camping equipment several times a year. Nomadic life thrives in summer and **survives** in winter. When the weather is warm, they work hard on their farms to get milk and make airag — a type of milk **alcohol**, consuming meat from their sheep and goats. Once winter comes, temperatures drop quickly and they stay indoors and survive on horse meat.

With the rise of technology, changes in the Mongolian nomadic lifestyle are almost inevitable. Many herders use motorbikes to herd cattle and horses. To move their homes, they use trucks instead of ox carts. Solar panels are also becoming an addition to the ger, giving them access to electricity without being confined to one place. The nomads use solar energy to power TV sets and mobile phones.

I. Read the following passage and circle the letter A, B, C or D to indicate the correct word or

phrase that best fits each of the numbered blanks. (1.25 points)

Supermarkets have become one of the (19) _____ popular places to shop for food and other items. Many people prefer to shop at supermarkets for some reasons, one of which is that they offer a wider range of products. Shoppers can find (20) _____ they need in one place, rather than visit multiple stores. Supermarkets also offer a greater variety (21) _____ brands and product types, making it easy to find the perfect item. In addition, many supermarkets now (22) _____ organic and healthy food options and a wide selection of international foods. This simply gives shoppers more choice and allows them (23) _____ the products that best suit their needs. Another reason is supermarkets offer competitive prices. While smaller stores may offer some discounts, supermarkets usually have the best deals on food and household items. This is because supermarkets purchase items in bulk, which allows them to get a lower price from suppliers. This can help shoppers save money on their grocery bills.

It was the rainy season and there was a severe **downpour** for a whole week. At first, the villagers thought that it was normal. However, the rain got heavier and heavier and, soon, their neighbourhood was flooded. They were totally unprepared. The water level in the river rose very fast and submerged the whole village in one metre. The flood swept away livestock and furniture. Everyone was frightened. Some people climbed to the rooftops and waited for rescue boats. While it was still raining heavily, rescue workers were searching all places to evacuate the villagers to a flood relief centre. The men in the village, after being rescued, helped with the work. At the centre, they were given hot drinks, porridge and milk for the babies as well as dry clothes and blankets.

When there was less rain and flood water declined, the villagers left the centre for home and started to clean up their village. It was such a relief to see the sun again. They decided to follow the authority's warning system and prepare themselves for floods during the rainy season ever since.

Most Americans look forward to their vacation. Most American employees receive an annual vacation with pay, and it is traditional to use this time off for travel.

Travelling within the United States is very popular because foreign travel generally takes more time and money. However, those who want to travel outside the USA are free, to go almost anywhere. Obtaining a passport is a routine matter. Every year about thirteen million people travel abroad. The most popular periods are during the summer and the two-week school break on Christmas and New Year holidays. These periods are also the most crowded and the most expensive time to travel, so people who can adjust their schedules sometimes choose to travel in the autumn.

American tourists often travel by car. Most families own a car, and those who do not have can rent one. Cars are usually the most economical way to travel, especially for families. It is also fairly fast and convenient. Excellent highways with motels and restaurants nearby connect the nation's major cities. **They** enable tourists to travel at a speed of 55 to 66 miles an hour. Tourists that want to travel faster often fly to their destination and then rent a car when they get there.

Like many countries, Britain has serious environmental problems. In 1952, more than 4,000 people died in London because of the smog. The government introduced new laws to stop smog from coal fires and factories and the situation **improved** a lot.

Today, London is much cleaner but there is a new problem: smog from cars. In December 1991, there was very little wind in London and pollution increased. As a result, about 160 people died from pollution in just four days.

Part of the problem is the new “out of town” shopping centres. In the past, people often walked to shops near their homes or went by bus. Now, many people drive to the new shopping centres. The small shops have disappeared and more people have to travel to do their shopping.

Many people are trying to reduce the use of cars in Britain. Some cities now have special bicycle lanes, so people cycle to work. Some people also travel to work together in one car to reduce pollution and costs.

Question 25. Which of the following sentences is TRUE according to the passage?

- A. The government once introduced a law against smog from cars and factories.
- B. London is much cleaner than before, so nobody dies from pollution any longer.
- C. Now smog in London mainly comes from cars.
- D. People in cities now go to work by bicycle only.

Question 26. Why do people drive to go shopping?

- A. They prefer shops in big shopping centres outside of town.
- B. Small shops near their homes have disappeared.
- C. Many new shopping centres have appeared outside of town.
- D. It has become popular to do shopping in large shopping centres.

Question 27. How many people died because of the smog in 1991?

- A. 4,000
- B. less than 4,000
- C. more than 4,000
- D. about 4,000

Question 28. The word “*improved*” in the first paragraph probably means _____.

- A. got worse
- B. maintained
- C. reduced
- D. became better

Question 29. How many examples are there in the passage of people reducing car use?

- A. Two
- B. Three
- C. Four
- D. Five

II. Read the following passage and circle the letter A, B, C, or D to indicate the correct answer to each of the questions. (1.75 points)

Like many countries, Britain has serious environmental problems. In 1952, more than 4.000 people died in London because of the smog. The government introduced new laws to stop smog from coal fires and factories and the situation **improved** a lot.

Today, London is much cleaner but there is a new problem: smog from cars. In December 1991, there was very little wind in London and pollution increased. As a result, about 160 people died from pollution in just four days.

Part of the problem is the new "out of town" shopping centres. In the past, people often walked to shops near their homes or went by bus. Now, many people drive to the new shopping centres. The small shops have disappeared and more people have to travel to do their shopping.

Many people are trying to reduce the use of cars in Britain. Some cities now have special bicycle lanes, so people cycle to work. Some people also travel to work together in one car to reduce pollution and costs.

1. Which of the following statements is TRUE according to the passage?

- A. The government once introduced a law against smog from cars and factories.
- B. London is much cleaner than before, so nobody dies from pollution any longer.
- C. Now smog in London mainly comes from cars.
- D. People in cities now go to work by bicycle only.

2. Why do people drive to go shopping?

- A. They prefer shops in big shopping centres out of town.
- B. Small shops near their homes have disappeared.

C. Many new shopping centres have appeared outside of town.

D. It has become popular to do shopping in large shopping centres.

3. How many examples are there in the passage of people reducing car use?

A. Two

B. Three

C. Four

D. Five

4. The word “**improved**” in the first paragraph probably means _____

A. got worse

B. reduced

C. became better

D. Maintained

5. How did people go shopping in the past?

A. on foot

B. By car

C. by bus

D. A & C are correct

6. What is the best title for this passage?

II. Read the following passage and circle the letter A, B, C, or D to indicate the correct answer to each of the questions. (1.75 points)

Like many countries, Britain has serious environmental problems. In 1952, more than 4,000 people died in London because of the smog. The government introduced new laws to stop smog from coal fires and factories and the situation **improved** a lot.

Today, London is much cleaner but there is a new problem: smog from cars. In December 1991, there was very little wind in London and pollution increased. As a result, about 160 people died from pollution in just four days.

Part of the problem is the new “out of town” shopping centres. In the past, people often walked to shops near their homes or went by bus. Now, many people drive to the new shopping centres. The small shops have disappeared and more people have to travel to do their shopping.

Many people are trying to **reduce** the use of cars in Britain. Some cities now have special bicycle lanes, so people cycle to work. Some people also travel to work together in one car to reduce pollution and costs.

Question 24. Which of the following statements is TRUE according to the passage ?

- A. The government once introduced a law against smog from cars and factories.
 B. London is much cleaner than before, so nobody dies from pollution any longer.
 C. Now smog in London mainly comes from cars.
 D. People in cities now go to work by bicycle only.

Question 25. Why do people drive to go shopping?

- A. They prefer shops in big shopping centres outside of town.
 B. Small shops near their homes have disappeared.
 C. Many new shopping centres have appeared outside of town.
 D. It has become popular to do shopping in large shopping centres.

Question 26. The word "**improved**" in the first paragraph probably means _____.

- A. got worse B. reduced C. became better D. maintained

Question 27. How many examples are there in the passages of people reducing car use?

- A. Two. B. Three. C. Four. D. Five.

Question 28. The word "**reduce**" in the four paragraph is **opposite** in meaning to _____.

II. Read the following passage and mark the letter A, B, C, or D to indicate the correct answer for each of the following questions (1.5 points).

Like many countries, Britain has serious environmental problems. In 1952, more than 4,000 people died in London because of the smog. The government introduced new laws to stop smog from coal fires and factories and the situation **improved** a lot.

Today, London is much cleaner but there is a new problem: smog from cars. In December 1991, there was very little wind in London and pollution increased. As a result, about 160 people died from pollution in just four days.

Part of the problem is the new "out of town" shopping centres. In the past, people often walked to shops near their homes or went by bus. Now, many people drive to the new shopping centres. The small shops have disappeared and more people have to travel to do their shopping.

Many people are trying to reduce the use of cars in Britain. Some cities now have special bicycle lanes, so people cycle to work. Some people also travel to work together in one car to reduce pollution and costs.

Question 25. Which of the following statements is TRUE according to the passage?

- A. The government once introduced a law against smog from cars and factories.
- B. London is much cleaner than before, so nobody dies from pollution any longer.
- C. Now smog in London mainly comes from cars.
- D. People in cities now go to work by bicycle only.

Question 26. Why do people drive to go shopping?

- A. They prefer shops in big shopping centres outside of town.
- B. Small shops near their homes have disappeared.
- C. Many new shopping centres have appeared outside of town.
- D. It has become popular to do shopping in large shopping centres.

Question 27. How many examples are there in the passage of people reducing car use?

- A. Two.
- B. Three.
- C. Four.
- D. Five.

Question 28. The word "**improved**" in the first paragraph probably means

- A. got worse
- B. reduced
- C. maintained
- D. became better

Question 29. What is the best title for this passage?

- A. Reducing the Use of Cars in Britain

II. Read the following passage and mark the letter A, B, C, or D to indicate the correct answer for each of the following questions (1.75 points).

Sarah loves shopping online. She prefers mobile phone apps, but sometimes she uses her computer. The phone is more convenient for her, and she can even do her shopping from bed! She orders food, electronics, books, and even large pieces of furniture such as sofas and bookshelves all online! But she likes getting clothes from a store, so she can try them on. Online shopping saves Sarah a lot of time because she is a very busy person. If she thinks of something she wants, then it is wonderful that she can buy **it** at that moment.

Sarah's friends aren't as comfortable with buying things online as she is because they think that it can be dangerous. Of course, bad things sometimes happen, but she is very careful with all of her personal details. Sarah thinks the biggest fear that people have with using their credit cards online is that someone will steal their number. It is important to be sure that the web page is **secure**. You can see this if the address has got an "s" in it, like *https://*. That "s" means it is safe.

II. Read the following passage and circle the letter A, B, C, or D to indicate the correct answer for each of the questions. (1.75 points).

Two of the most dangerous storms which affect America are hurricanes and tornadoes. They are very much feared by anyone who may live in the path of their destruction. **Every year** homes are destroyed by their fury and often lives are lost. Most people who live near the coast are forced to evacuate their homes and to move to safer areas until the storm passes. Floods are caused along the coasts by both the heavy rain and a storm tide that is considerably above normal water level. The high winds, coastal flooding and heavy rains associated with a hurricane cause enormous damage.

Hurricanes usually develop between July and October. Once they hit land they carry tremendous power with driving rain and wind. Tornadoes are violent low-pressured storms. These storms occur most often during the summer months and are noticeable by their strong wind and lack of rain. The sky turns black as dust is sucked up into the air. Tornadoes are capable of lifting quite heavy objects from the ground. **They** can pick up trees and cars right into the air and even uplift heavier objects such as homes and railway cars. Both hurricanes and tornadoes cause

millions of dollars worth of damage to life and property every year. Today they can be predicted more easily than in the past, but they cannot be stopped or ignored
